LC Industries

Electronic Item Update Instructions

The LC Industries item file that you download from the O/PUS® PSN is loaded into your DDMS item database with the program U_LCI.

1st - Download Files from the O/PUS PSN
(NOT Dedicated)

Run the **PsnControl** program to transfer the files listed to the right from the **O/PUS PSN** to your DDMS computer.

Filenames

U_LCI
↑ *update program name*

I-LCI (or your custom file name)
↑ *item file name*

2nd - Update Steps (DEDICATED) *Make sure that you have a current Backup of the Inventory and Contract folders*

In the **+ I F** screen, enter **P** for 'Run Program'
Which program? **U_LCI**
Are you ready to run U_LCI Y/N ? **Y**

The following prompts will appear:

1. **Printer for Report** — Enter the printer designation to print the exceptions report.
2. **Filename of the LC Industries Update File** — Enter the name of the LC Industries item file that you downloaded from the O/PUS PSN.
3. **Create New Items ? (Y/N)** — U_LCI will look for items in your DDMS item database by using the LC Industries item number and the company "NSN". If no item is found that matches this SKU, do you want to create a new item?

   If you answer "Y" to "Create New Items", the following 2 questions appear:

   Class for New Items — Enter the stock class you want the new items to have.

   Department for New Items — Enter the department you want the new items to have.

4. **Update Descriptions on Existing LCI items?** — If LC Industries is the Primary Wholesaler for an item in your DDMS item database, do you want to update that item's description?
5. **Stock Classes you DO NOT want to update** — Enter the stock classes of the items you do not want to update.
6. **O.K. to Proceed? (Y/N) [ ]** — If you are ready to run the program, answer 'Y'. 'N' will abort the program.

The following step can be run after you load this file. It will move the best item costs into the Purchasing Vendor.

1. **Run + I Z , + I L , or + I T** *See instructions in the O/PUS documentation if needed.*
