

Resolving Problems Logging on through Ataman

What the Problem Is

You may experience problems logging on to your NT system through Ataman after 10 or 20 people are already logged on. This occurs even though a number of licenses are still available.

How to Resolve It

This problem is caused by a bug in Windows NT.

Microsoft has instructions for resolving this issue by changing the registry. For complete instructions, see <http://support.microsoft.com/support/kb/articles/q142/6/76.asp>
